

# QDX

3 DLP high brightness projector with the best visual experience for the best return on investment

# Projection redefined

Our next-gen projection platform QDX is quality redefined in visual experiences.

**Brighter. Sharper. Lighter. Faster.**

Resulting in immersive projections that leave audiences in awe. But there's more than meets the eye. Higher impact, yet lower TCO, reduced energy, less weight. Precisely visioneered for your ever-expanding experiences.

## Unprecedented image quality

The QDX is a next-gen projection platform where exceptional visuals meet cutting-edge technology. It brings forth bright and clear images in any environment thanks to **its ultra high brightness capabilities up to 41,000 center lumens\***. Using the Barco 0.98 DMD chip, you'll get **captivating 4K picture quality and lavish colors** taking your high-resolution content to the next level.

And your projections just got a new pulse thanks to our patented next generation Pulse electronics. With **ultra-fast processing and higher bandwidth up to 8K@60Hz or 4K@240Hz**, you'll get smoother images and sharper pixels.

## Maximized ROI

The QDX is the world's most **compact and lightest projector in its category**, with everything at hand to maximize your ROI. Enjoy premium visuals with consistent brightness and long lifetime.

You can build on your existing investments, and **reuse the Barco rental frames, flight cases and TLD+ lens range with throw ratios from 0.4 - 11.6:1** already in your fleet on the QDX. And the feature-packed projector is also fully integrated in Barco's suite of smart peripherals and software tools for complete peace-of-mind.

## High reliability

Engineered with longevity and durability in mind, you can rely on the QDX reliable performances wherever and whenever. Thanks to **material innovation and optimized designs**, the QDX delivers sharp images and maintains its astounding brightness over time. Its **clever design with modularity** allows for faster serviceability and maintenance, and the air filter design ensures reliability in the harshest environments.

## Sustainability

Using the UN's Sustainable Development Goals and the Science Based Targets Initiative as a framework for our sustainability efforts in new products, we want to enable you to lower your environmental footprint.

The QDX is the first Barco projector with an A+ Barco Eco Product Label. This positive ecoscoring is based on its brightness efficiency, the use of durable components, and optimized lifetime cycle which minimize the projector's environmental impact. resolution, now and tomorrow.

## DuraOptix™

Barco's material scientists collaborated with the world's leading glass manufacturers on new material design to provide high performance over time and future-proof the optical parts in the QDX flagship projectors for future resolutions and brightnesses.

With our new engine prisms and improved optical path design, you will get an even sharper image up to 8K resolution, now and tomorrow.

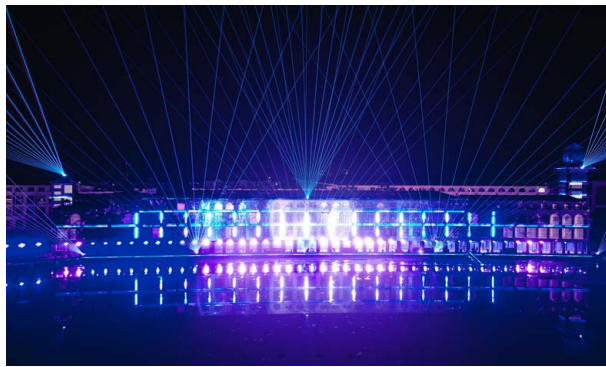

## Barco's cloud-based **Insights Management Suite** allows you to get the most out of your fleet!

Keep your QDX projectors running and extend the equipment lifetimes thanks to real-time performance insights enabling proactive maintenance and efficient uptime management. The data are accessible anywhere, anytime, and can easily be combined with your own tools and current processes. Efficiency, reliability and flexibility at the core of your projector installation.

Find more details in our dedicated leaflet for Barco Insights Management Suite.

# Ever-expanding experiences

The QDX roadmap offers multiple illumination technologies, resolutions, color space options and brightness levels within a single projection platform. This unique innovation makes QDX a rock-solid modular solution fit for the most demanding setups and markets. Keep an eye on our website for all updates on the growing QDX platform.
